Safeguarding Pledge

To demonstrate my commitment to safeguarding children I pledge to:

- ensure that children are visible, their voices heard and their needs, views and wishes addressed;
- recognise that some children may be more vulnerable to harm due to their age, specific needs or home circumstances;
- always act in the best interests of children;
- work in partnership with other agencies;
- share information promptly to support a collective and holistic assessment of children's needs;
- meet all mandatory training requirements, regularly updating my professional knowledge applying any learning to my practice.
