

Expressive Arts and Design

Children will have access to a wide range of materials and media to develop their own creations, unfettered by pre-determined, adult-initiated ideas. They will be able to experiment with musical instruments, sing with each other, dance and move imaginatively.

They will also be

able to build on their own experiences of life through role play and discussion. You can be sure that whatever your child creates will be their own work!

Understanding Your Child

We assess the children continually, by closely observing their learning and development through play. Through discussions with parents, both formal and informal, we share these observations and record accordingly. At the end of the year, these are produced into a profile which carries on in to the Reception class. The children have a personalised 'learning journey' which can be accessed securely online.
